

Omni View (US Patent # 6,360,494) — Zero Blind Spot, 100% Staff & Inmate Archived Surveillance, Transparent Justice — Adult/Juvenile Prison/Jail/Detention Center Incarceration Design

No current adult/juvenile prison, jail nor detention center's incarceration design meets the number one stated purpose of:

The Prison Rape Elimination Act of 2003 (PREA)"42 USC 15602 SEC. 3. PURPOSES. The purposes of this Act are to—

(1) establish a zero-tolerance standard for the incidence of prison rape in prisons in the United States;" (emphasis mine)

from the new Federal Public Law # 108-79, September 4th, 2003.

The definition of **zero-tolerance** from the Oxford English Dictionary is:

"zero-tolerance orig. U.S., resolute opposition or resistance to anti-social (esp. criminal) behaviour, typically by strict and uncompromising application of the law; a stated policy of this kind, designed to eliminate unacceptable conduct, esp. of a specified kind." (emphasis mine)

Please use your six billion page Google search engine www.google.com for **INNOVATIVE INCARCERATION**.

When you see Omni -View U.S. Patented #6,360,494, please click on it, and then download the 26 page Transparent Justice special report, to learn how the project's three following paragraphs may provide you with descriptions of how, your Governmental Agency is now positioned, with a significant economic development opportunity.

Incarceration risk management is the designation applied to a systematic method of identifying; analyzing; evaluating; monitoring and understanding an agency's exposure to risk from any adverse event that is planned or unplanned which can potentially impact the agency's resources. The most difficult of all risk is an unplanned, unwelcome, unanticipated and unrecognized, legislatively mandated Act which creates operationally obsolete incarceration designs.

All current incarceration designs have blind-spots (**environments of opportunity**) which may be used for prohibited acts and are unobserved/unrecorded/unarchived. As of September 4th, 2003 they can not meet Federal Public Law #108-79 **zero-tolerance**.

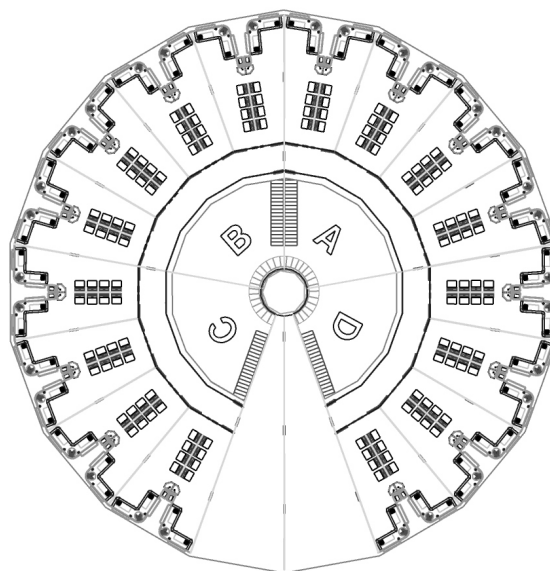

Funding via the Certificate of Participation (COP) tax exempt bond issuance, certification of essential need, will be enhanced once the design obsolescence is examined and recognized. Governmental Agencies will receive the title to the project for 1 dollar, after twenty years of project payments, from fee for juvenile incarceration services revenue.

I have invented and patented a cost efficient, healthier and safer type of incarceration system and design which has zero blind spots and archives 100% staff and inmate surveillance and does meet the number one stated purpose, 42 USC 15602 **zero-tolerance**, of the new Federal Public Law # 108-79, September 4th, 2003.

The Omni-View design can be used adjacent to existing facilities which are not yet ready for replacement or as a complete stand alone and **it also requires less than half the duty station staff** current incarceration designs have, while optimizing security.

The Omni View design is a COST EFFICIENT; ZERO-BLIND-SPOT; 100 % STAFF & INMATE SURVEILLANCE; RAPE; FIRE; SUICIDE; TUBERCULOSIS; SARS; HIV; AIDS; GONORRHEA; SYPHILIS; CHLAMYDIA; GENITAL HERPES; HEPATITIS B & C; PREDATOR; ESCAPE & PROHIBITED ACT RESISTANT; NEW FEDERAL PUBLIC LAW # 108 - 79 COMPLIANT; TEXAS COMMISSION ON JAIL STANDARDS & AMERICAN CORRECTIONAL ASSOCIATION STANDARDS COMPLIANT; US PATENTED # 6,360,494 INCARCERATION DESIGN.

TASC is so certain its innovative and new, Governmental Agency run model will work, it believes in offering a project which is based on recidivism, with a negotiated and specific definition of recidivism/time, and placing a negotiated portion of TASC's monthly, quality assurance compensation fee, in escrow, with a mutually agreed upon, Trust Department Bank which releases the specified amount, via a negotiated and in place Trust Agreement, to TASC, **if the inmate does not recidivate**, or in the alternative, releases the specified amount to the Fee For Incarceration Services Contracting Agency, **if the inmate does recidivate**.
